About CII

The Confederation of Indian Industry (CII) works to create and sustain an environment conducive to the development of India, partnering Industry, Government and civil society, through advisory and consultative processes.

CII is a non-government, not-for-profit, industry-led and industry-managed organization, with around 9,000 members from the private as well as public sectors, including SMEs and MNCs, and an indirect membership of over 365,000 enterprises from 294 national and regional sectoral industry bodies.

For more than 125 years, CII has been engaged in shaping India's development journey and works proactively on transforming Indian Industry's engagement in national development. CII charts change by working closely with Government on policy issues, interfacing with thought leaders, and enhancing efficiency, competitiveness, and business opportunities for industry through a range of specialized services and strategic global linkages. It also provides a platform for consensus-building and networking on key issues.

Through its dedicated Centres of Excellence and Industry competitiveness initiatives, promotion of innovation and technology adoption, and partnerships for sustainability, CII plays a transformative part in shaping the future of the nation. Extending its agenda beyond business, CII assists industry to identify and execute corporate citizenship programmes across diverse domains including affirmative action, livelihoods, diversity management, skill development, empowerment of women, and sustainable development, to name a few.

For 2024-25, CII has identified "Globally Competitive India: Partnerships for Sustainable and Inclusive Growth" as its Theme, prioritizing 5 key pillars. During the year, it would align its initiatives and activities to facilitate strategic actions for driving India's global competitiveness and growth through a robust and resilient Indian industry.

With 70 offices, including 12 Centres of Excellence, in India, and 8 overseas offices in Australia, Egypt, Germany, Indonesia, Singapore, UAE, UK, and USA, as well as institutional partnerships with about 300 counterpart organizations in almost 100 countries, CII serves as a reference point for Indian industry and the international business community.

Confederation of Indian Industry

Building the Future

Advancing Mining & Construction Equipment
for a Smarter & Sustainable Tomorrow

MINING AND CONSTRUCTION EQUIPMENT SUMMIT

14 JULY 2026 | NEW DELHI

About the Summit

India's Mining and Construction Equipment (MCE) sector stands at a pivotal moment—driven by infrastructure growth, technological transformation, sustainability and the rising importance of critical minerals.

To shape the sector's next phase of growth, the Confederation of Indian Industry (CII), through its National Mining and Construction Equipment Division, is organising the National Mining and Construction Equipment Summit 2026 on 14 July 2026 in New Delhi.

This Summit will bring together policymakers, industry leaders, OEMs, manufacturers, mining and construction companies, financial institutions, technology providers, and innovators on a common platform to drive dialogue, promote collaboration, and align policy with industry priorities.

Focused on technology, sustainability, manufacturing competitiveness, supply chain resilience, localisation and critical minerals, the Summit aims to chart a clear and actionable roadmap for building a globally competitive and future-ready MCE sector—reinforcing its role as a key enabler of India's infrastructure growth, industrial development and self-reliance.

Summit Objective

The Summit aims to create a collaborative platform to:

- Strengthen industry-government dialogue
- Promote innovation & localisation
- Accelerate technology adoption
- Enhance global competitiveness
- Build a future-ready MCE ecosystem for India

Key Focus Areas

- Technology & Smart Equipment
- Manufacturing Competitiveness
- Critical Minerals & Mining Opportunities
- Sustainability & Future Mobility
- Supply Chain Resilience
- Digitalisation, AI & Automation
- Financing & Ecosystem Development

Who should Attend

- Earthmoving Equipment
- Material Handling
- Road Construction Equipment
- Crushing & Screening
- Concrete Equipment

Equipment Manufacturers

Supply Chain & Technology Partners

- Raw Material Suppliers
- Component Manufacturers
- Distributors & Dealers
- Aftermarket Service Providers
- Technology & Automation Providers
- Logistics & Surface Transport

- Mining Companies
- Infrastructure & Construction Firms
- Steel & Cement Industry
- Contractors & Developers
- Public Sector & Government Bodies
- Urban Local Bodies & Authorities

End Users & Key Stakeholders

Policy Makers & Institutions

- Central Government Representatives
- State Government Representatives
- Regulatory Authorities
- Industry Associations
- Financial Institutions

India stands at the 5th position in the global equipment market.

In 2026, India's Mining & Construction Equipment (MCE) industry is valued between \$14 billion & \$16 billion.

India's mining & construction equipment sector is set to reach Rs. 3,83,850 crore (US\$45 billion) by 2030, growing at a 19% CAGR.

India's MCE Sector at a Turning Point

India's Mining & Construction Equipment sector is entering a new era driven by:

- Infrastructure Expansion
- Mining Growth & Critical Minerals
- Technology & Automation
- Sustainability & Energy Transition
- Manufacturing & Localisation
- Digital Transformation
